Dear Parents and Carers,

This is our fourth curriculum overview of the school year and its purpose is to share information about what the children will be learning this term. This is a key term as we prepare for a range of different statutory assessments and other checks that will take place in Term 5, after the Easter holiday. The key assessment areas are:

- **FS2** - a formal check on the progress of children in their key foundation year
- **Y1** - National Phonics Screening
- **Y2** - Key Stage 1 statutory assessments (SATs), writing moderation and follow-up phonics screening*
- **Y3** - writing moderation
- **Y4** - formal multiplication tables assessment and writing moderation
- **Y5** - writing moderation
- **Y6** - Key Stage 2 statutory assessments (SATs) and writing moderation

*for children who did not achieve the phonics standard in the Y1 national screening

Good attendance is always important, but even more so this term, and not just because it will really support children to learn and progress, but also to support their wellbeing. We know that absence from school makes many children anxious because they tell us that they worry about missing learning and their classmates.

We know that there are times when absence is unavoidable, for example, when children are poorly, and so we always work very hard to help them settle back in. We also do really appreciate it when unnecessary absences are avoided, for example, no term-time holidays and odd days here and there, as well as appointments, if there is an option for them to be made after school, during school holidays or at the end of a school day. This really does help children to maintain both their learning and connections with friends.

As usual, the overview contains important information about the children's curriculum and the key words they will need to know if they are going to be able to know and do more. There are also tips for supporting them.

Please encourage your children to complete homework tasks. If they have done their best, but have not managed to finish a task or have not understood something, please offer reassurance and tell them to stop. Try to avoid the temptation to 'over-help', as this can mask issues, and delay them getting help. Simply notify us via email, a note or over the phone and we will follow it up positively, and offer lots of encouragement.

If you have any questions or need support, please contact us. We would also really like to hear from you if you have specific knowledge, experiences or artefacts, related to our topics, that you would like to share.

Yours sincerely,

Headteacher
